

The Ritual of Mehr

Consciously curated

Care that reflects our standards

In our suites and rooms, guests are provided with selected care products from Rituals – from the *The Ritual of Mehr* line.

For us, it is often the quiet details that make the difference: high-quality products, a harmonious design and a mindful use of resources.

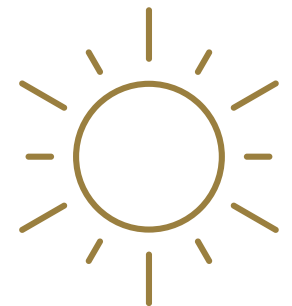

The Ritual of Mehr fits seamlessly into this approach – understated, refined and pleasantly reassuring in everyday use.

An invigorating ritual

The Ritual of Mehr stands for energy, warmth and a sense of renewed lightness.

The sun-infused citrus notes feel uplifting without being overpowering, creating a sense of freshness and balance – ideal for a refreshing start to the day or a relaxed moment in the evening.

A small care ritual that blends effortlessly into your stay.

Rituals

– thoughtfully designed

Rituals stands for care products that address both body and mind. The brand combines high-quality formulations with a clear design philosophy and an approach that integrates mindfulness into everyday life.

Rather than following short-lived trends, Rituals focuses on timeless concepts that enhance well-being and blend naturally into contemporary hotel environments.

This calm, considered approach aligns perfectly with our understanding of quality and hospitality.

Developed with responsibility

In developing its products, Rituals follows a responsible approach. This includes carefully selected ingredients, a mindful use of resources and the continuous improvement of packaging solutions.

We see sustainability not as a promise, but as an ongoing process – shaped by transparency, continuous improvement and long-term thinking.

It is precisely this approach that makes *The Ritual of Mehr* a fitting cooperation partner for our hotel.

A conscious decision

When selecting our partners, we place great value on quality, shared values and long-term responsibility.

The Ritual of Mehr stands out for its clear product philosophy, understated design and the ambition to continuously develop care products in a responsible way.

For us, this collaboration is a natural part of our overall concept – subtle, refined and contemporary.

A detail that enhances your stay

High-quality care products are an integral part of a pleasant stay. In our suites and rooms, *The Ritual of Mehr* offers a care ritual that brings together quality, comfort and conscious design.

The products are pleasant to use, subtle in fragrance and blend harmoniously into the overall experience of your stay.

A small detail that conveys calm, quality and a sense of thoughtful attention.

A decorative header featuring a repeating geometric pattern of interlocking triangles in a light beige color.

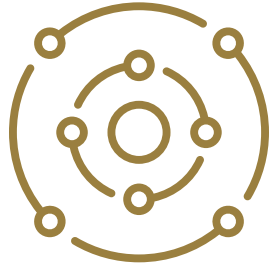

Consciously selected

For us, sustainability is reflected in many small, well-considered decisions – in the choice of our materials, our partners, and in the details our guests encounter every day.

The Ritual of Mehr exemplifies this approach: high-quality care products, responsibly developed and aligned with our standards of quality and design.

An approach we embrace throughout the entire hotel – subtle, sincere and focused on what truly matters.

Responsibly together

The Ritual of Mehr is part of a carefully selected network of partnerships through which we shape our path towards conscious hospitality.

Together with partners who share our values, we focus on quality, transparency and a respectful approach to both people and the environment.

Further insights into our sustainable partnerships can be found on this website.
